

REMARKS/ARGUMENTS

In response to the Examiner's final Office Action of August 27, 2007 the Applicant respectfully submits the accompanying Amendment of the claims and the following Remarks.

Regarding Amendment

In the Amendment:

independent claim 1 is amended to specify that the claimed method includes determining operation parameters of the printer and producing the wallpaper products with the printer in accordance with the determined operation parameters; and
dependent claims 3-5, 7, 13, 31, 37-41 and 49 are unchanged.

It is respectfully submitted that the Amendment does not add any new matter to the present application, nor any new issues to the prosecution of the present application.

Regarding 35 USC 103(a) Rejections

It is respectfully submitted that the subject matter of amended independent claim 1, and claims 3-5, 7, 13, 31, 37-41 and 49 dependent therefrom, is not taught or suggested by any one or more of previously cited Martin, Nozawa, Stoffel and Goldstein, because none of these cited references teach or suggest printing wallpaper in accordance with monitored operation parameters of the printer.

It is respectfully submitted that the Examiner's rejections have been traversed. Accordingly, it is submitted that the present application is in condition for allowance and reconsideration of the present application is respectfully requested.

Very respectfully,

Applicant/s:
